

Jesús Ruiz

Full Stack Developer and Graphic Designer

I am a Junior Full Stack Developer with 2 years of experience in PHP and Laravel, and basic knowledge of frontend technologies such as JavaScript, React, Astro and NextJS. I have experience in deploying applications on various platforms, which allows me to manage projects comprehensively.

In addition, I have 6 years of experience as a Senior Graphic Designer, specialized in Visual Identity. This combination of skills allows me to contribute in all phases of the project: from the design of visual prototypes, through backend and frontend development, to deployment and maintenance.

Technologies and Skills

Work Experience

Jesuiz Design

2022 – 2024

Full Stack Developer & Graphic Designer

I implemented digital solutions in Web Development and Branding for businesses located in Peru, Puerto Rico and the USA. The services covered Visual Identity Design as well as Website Development, Ecommerce and Web Applications.

Clave Publicitaria

2022 – 2023

Wordpress Developer & Graphic Designer

As business manager, I managed to integrate new digital services to address a new unexplored market, where I executed Visual Identity Design and Website Development services, complementing the already established services of Printing, Gigantography and Merchandising.

Geotop

2021 – 2021

Wordpress Developer & Graphic Designer

I designed all the company's audiovisual material for digital and physical environments. I developed a new Website with Wordpress and optimized all the company's other websites. I managed all the company's graphic design, as well as the edition and transmission of the monthly Webinars.

Techno Global

2018 – 2021

Graphic Designer & Supervisor

I carried out designer activities related mainly to Social Media, Advertising, Printing and Gigantography. After 6 months I led the activities as store supervisor with 3 people in charge.
