## About Me

I have worked as a Graphic Designer for more than 6 years, specializing in Branding and Visual Identity. Now I focus on Web Development, accumulating +2 years of experience with real clients. I develop with Laravel and PHP, I also make well-optimized sites with Wordpress, without crying in the process.

## Work Experience

### Jesuiz Design - Freelancer

2022 - Current

Graphic Designer & Web Developer

I execute digital solutions in Branding and Web Development internationally. Specifically Corporate Identity Design (Branding), Website Development, Ecommerce and Web Applications.

### Clave Publicitaria - Printer's

2022 - 2023

Manager, Graphic Designer & Web Developer

I started as business manager and promoted the integration of new digital services complementing the Printing, Gigantography and Merchandising services.

### Geotop - Surveying Company

2021 - 2021

Manager, Marketing Area

I designed all the company's audiovisual material for digital and physical environments. I developed a new website with Wordpress and optimized all the company's other websites. I managed all the company's graphic design, as well as the edition and transmission of the monthly webinars.

### Techno Global - Printer's

2021 - 2021

Manager, Graphic Designer

I carried out designer activities related mainly to Advertising, Printing and Gigantography. After 6 months I led the advertising activities as Business Manager with 3 people in charge.

## Education
